Release Notes

Pukka-J DICOM Explorer 6.2.2

(Released 26/10/2018)

Double and Float VM

Fixed an issue where floats and double with a VM > 1 where losing the values after the first due to the way they were handled.

Forwarder DICOM Compatibility Options

Added the application of the compatibility options to the Dicom forwarder as previously, any configured compatibility options like tag stripping were only applied in a CMOVE request to the server.
