Release Notes

Pukka-J DICOM Explorer 6.2.8

(Released 25/09/2019)

HL7 Message Parsing

Remove encoded line break text from notes in a message because if this is in front of an apostrophe it can cause a DB insert issue.

SR to ORU Parsing

If there is no value for the “meaning” of an SR component when creating an ORU, the report text is taken from the Image Comments field in the DICOM Header.

Rescale Type

Turned off updating of the rescale type by default.
