Release Notes

Pukka-J DICOM Explorer 6.4.5
(Released 04/07/2023)

Status Update
Updated some RIS stats to allow modality filtering.

Group 2 Tag Left Over in Header.
Added a check to the DICOM Header class to look for a left over source AE class at the start of the header, possibly from a bad conversion to implicit from explicit.

MySQL 8 Support
Added MySQL 8 Support.
