Multi Syntax, Multi SOP Class Association Error

Fixed an issue with a particular type of association in a CSTORE.

It was found that a system was using an association like this.

Presentation Context

ID (0x1)

SOP Class

Syntax 1

Syntax 2

Syntax 3

Presentation Context

ID (0x3)

SOP Class (Same as above)

Syntax 4

The system expected all the syntaxes in one presentation context, or each syntax in separate contexts, not a combination. The association handling has been updated to accept the above.
