Release Notes

mint.jar 1.14.00

(Released 23/04/2019)

DICOM to HL7 Node

Created a new Node to generate HL7 Messages for received studies.

AET Lists in Splitter

Added the ability to define a list of AETs in the IF and NOT IF rules in the splitter. AETs should be split using a + character without a space.

Read All Filetypes

Added the option for the file readers to read all files in a root rather than looking for a specific set of extensions.

WebSocket On Node

Added in the ability to establish a websocket study context on a specific node ID rather than forcing the use of the system DB.
