## Release Notes

### **mint.jar 1.23.04**

(Released 07/01/2021)

#### **DICOM To HL7 Node**

Use the study date from the DICOM File as the scheduled date in an ORM.

#### **ID Generator Node**

Don't allow a negative hash code for accession number generation.

#### **Report Filter Node**

When updating the study status for a report arriving, a "filler" string of "-----" could be there which needed to be cleared first.

#### **PACS System Network**

Updated the system network to use the system data location.
