Release Notes

mint.jar 1.23.07

(Released 08/03/2022)

QA Nodes

New RGBToMono node for Xray QA

New Pathway node for path indexing via UID.

File Reader Nodes

Update for the connection count on a status request on the output node.

Now uses a dedicated lock object and status update done on changes to the connections rather than when the status request is called.

Updates to the picture file reader implementations for issues with UIDs and syntax not being set.

PID Manager Node

Added the option to fix up the PID for and NHS number using the OIDS tag rather than the sequence.

Make the issuer check case insensitive.

Make the NHS string a constant.
