Release Notes

cloe.js.gz

nexus.jar 3.01.07

mint.jar 1.24.06

pacsoology.jar 1.21.00

pjk.jar 1.19.05

(Released 15/11/2022)

HL7 Integration Node UI (requires broker.jar)

Added in general options to modify HL7 fields in messages as they pass through a pipeline.

Anonymisation Node UI (requires broker.jar)

Added in the database options for an external SQL server database.

Added SLL connection option for SQL Server DB.

Redaction Node UI (requires redactor.jar)

Improved the redactor UI to better handle multiple region definitions and to display the general configuration options.

Alert Node UI

Added the config option to define the email body sent for alerts.

Misc UI Changes

Fixed a bug where when you selected to unlock the network from a node, after entering the details, the UI showed the network, rather than the config for the node to be edited. The UI now shows the node config on which the unlock was requested.
