Release Notes

cloe.js.gz
nexus.jar 3.02.02
mint.jar 1.24.08
pacsology.jar 1.21.02
pjk.jar 1.19.07
(Released 13/12/2022)

SR to PDF Node
New UI option for converting an SR to a PDF. (Requires pdf libraries)

PDF Output Node
New UI option for writing a DICOM PDF as a .pdf file. (Requires pdf libraries)

Custom Path for DICOM File Writer
New UI option for defining the folder name of the DICOM Writer Node.

Updated the DICOM File Writer node to allow a custom flat folder name definition. The sections of the folder (separated by _) are defined as a tag list.

For example, the config above would include the accession number with patient id, name and dob in the folder name as {root}/study/$ACC_NUM_$PID_$PAT_NAME_$PAT_DOB
