

Nexus 3.02.03 - Release Notes (20/12/2022)

UI

cloe.js.gz

Service

nexus.jar 3.02.03

mint.jar 1.24.09

pacology.jar 1.21.03

pjk.jar 1.19.08

UI

SR to PDF Node

Updated the node config to make the PDF sent to the regular output channel by default and optionally redirected to the delay channel. (Requires pdf libraries)

Service

Monochrome Baseline JOEG Decoding (pjk.jar)

Fixed an issue where the process for decoding certain types of monochrome 2 JPEG baseline files could fail as they were processed as though they were colour (RGBA) encoded.

Reporter (from DICOM SR) (pacology.jar)

Updated the Report object to use the person name in the report content sequence as the reporter in the event that the author field and verifier field is missing.

DICOM SR to Encapsulated PDF Node (mint.jar)

Added in sending the PDF output to the output channel and added an option to send it to the delay channel.

Decompressor Node (mint.jar)

Added in the passing of the photometric interpretation to the ImageFactory to decode mono jpegs correctly.
