Release Notes

pjk.jar 1.15.02

(Released 27/01/2020)

HTML Factory

When getting a table HTML response from the factory, the table font colour was hard coded as black. This is now applied externally to allow different look and feel options to be applied.

CMOVE Response

When sending a CMOVE response to a system that requested the operation, the factory sent a blank PDU in a flush after the response which is not needed and has been removed.
