## Release Notes

### **pjk.jar 1.19.11**

(Released 31/03/2023)

#### **DICOM Default Max Frame Size**

Increase the default maximum frame size to 200MB.

#### **DICOM Connection**

Close the underlying DICOM connection when closing an active DICOM connection.

Updated the DicomConnection method for get URL to return the URL and created a new method to return the URL as a string.

#### **HL7 Dictionary Update**

Added SC as a constant for Status Change in the HL7 Dict.

#### **Web Document Wrapper**

New WebDocument class for encapsulating the details around a RIS Web API document.

#### **DicomStore Class**

Created a new DICOM CSTORE class for sending DICOM to a DICOM URL. The class takes care of handling the association to the destination URL and streams frame data out before handling a release.
