## Release Notes

### **pacsoology.jar 1.07.00**

(Released 03/10/2018)

#### **SR Indexing**

Fixed a bug with report handling in the database where the path to the file could not be recorded because the output file wasn't initialised.

#### **Client Report Queries**

Extended the server side queries to give a composite list of available reports that included PACS (DICOM), RIS (Ordered Exams) and unreconciled reports that have been received from an external system.

#### **Query AET**

Added the called and calling AETs to the DicomStreamingService calls to handler.
