Release Notes

pacsoology.jar 1.13.00

(Released 25/04/2019)

Update Name Object

The Name object was updated to provide better and easier conversion between DICOM and HL7 Formats.

WebSocket PING/PONG

Added in the server-side code to send a PONG to the client when the server receives a PING.

Header Update for WebSocket Client

Added updating the DICOM header with the primary demographics from the database when a header is requested by a websocket image viewing client.
