## Release Notes

### **pacsoology.jar 1.15.00**

(Released 04/10/2019)

#### **Study Report**

Added in returning a JSON report for a qryrep request.

#### **DicomForward AETs**

Added option for called and calling AE on a forward job. If the Destination column is a Dicom URL, the AETs will be taken from that, otherwise the source column is the calling AET and the destination is the called AET.

#### **DicomFileSystemConnector Find Implementation**

Added the find method to the local file system connector for DICOM so that it can be used by the CacheNode to query for forward jobs without the need for a database.
