Release Notes

pacsoology.jar 1.18.04

(Released 07/01/2022)

DB Connection Lock

Changed the connection lock mechanism in the DB connector to use an independent static final object.
Changed lookup to an ArrayList from Vector.

The DBConnectionPool constructor threw an IOException in its signature the exception wasn't generated by the method content so it was removed and was therefore not needed to be caught by the classes using it.
