## Release Notes

### **pacsoology.jar 1.20.04**

(Released 30/06/2022)

#### **Reporting Tool**

Fixed some bad logic for the request notes in the reporting tool.

#### **PACS Sync Tool**

When building a database from a CFIND process, a change to update blank values resulted in the modalities in study not being updated.

This change allows the modalities in study to be used from the CFIND response in the study update.
